WELCOME MESSAGE

It is my pleasure to welcome distinguished delegates, government representatives, business leaders, investors, academics, development partners and members of the wider business community to the UK–Nepal Business Forum 2026.

Nepal and the United Kingdom share a longstanding relationship, with significant potential to expand economic cooperation. Against a backdrop of changing markets, emerging technologies and evolving global priorities, the Forum brings together key stakeholders to explore new avenues for trade, investment, innovation and stronger institutional partnerships.

An important priority in advancing this relationship is the signing of a Double Taxation Avoidance Agreement (DTAA) between Nepal and the UK. This long-awaited agreement has remained a key focus of NBCCI's advocacy, given its potential to provide greater tax certainty, strengthen investor confidence and encourage cross-border trade and investment. I urge both governments to accord the ongoing discussions the highest priority and work towards signing the DTAA.

Today's Forum provides a platform for constructive dialogue and practical collaboration. Through discussions on trade and investment, education and future skills, energy and infrastructure, and the digital economy, we aim to identify opportunities that can deliver tangible value for businesses in both countries.

At NBCCI, we believe meaningful partnerships are built on trust, shared ambition and consistent follow-through. This Forum is therefore not simply a meeting of ideas, but an opportunity to establish new connections and translate dialogue into meaningful outcomes. I would like to express my sincere appreciation to the British Embassy Kathmandu, our members, speakers, panellists and supporting organisations for their contributions to this important engagement.

I wish all delegates a productive and rewarding Forum. May the conversations and connections established here help shape a stronger, more dynamic and mutually beneficial future for UK–Nepal economic cooperation.

Dr Roshan Rathi
President
Nepal Britain Chamber of Commerce & Industry

BRITISH EMBASSY KATHMANDU

Strengthening the UK–Nepal Partnership

H.E. Rob Fenn
British Ambassador to Nepal
Patron, NBCCI

The United Kingdom is Nepal's oldest diplomatic partner. In the modern world, our friendship – which is wide and deep, dating back to 1816 – is evolving into a trade and investment partnership of equal depth and scope. The British Embassy Kathmandu is building a new 'Investment and Expertise Partnership' with Nepal, around sustainable finance, digital transformation and local leadership; and around Nepal's strategies to 'Build for the Future' after the Bhotekoshi Flood. A strong platform for our work with the UK Department for Business, Innovation, Science and Trade.

A Lasting Relationship with NBCCI

Established in 1995, the Nepal Britain Chamber of Commerce & Industry (NBCCI) works to promote trade, investment and commercial cooperation between Nepal and the United Kingdom.

Over the years, British Ambassadors to Nepal have held the role of Patron of NBCCI, reflecting the close relationship between the Chamber and the British Embassy.

The Embassy's diplomatic engagement, alongside NBCCI's role in connecting businesses and institutions, provides an important foundation for strengthening bilateral relationships between the two countries.

Looking Ahead

NBCCI values its relationship with the British Embassy Kathmandu and remains committed to strengthening UK–Nepal trade and investment ties. The UK–Nepal Business Forum 2026, organised by NBCCI in partnership with the British Embassy Kathmandu, continues this commitment by bringing stakeholders together to explore business opportunities for future partnership and collaboration.

ABOUT NBCCI

Connecting Businesses. Strengthening Bilateral Relations.

Established in 1995, the Nepal Britain Chamber of Commerce & Industry (NBCCI) is a bilateral business organisation committed to strengthening trade, investment and economic cooperation between Nepal and the United Kingdom.

NBCCI provides a platform through which businesses, investors, institutions and professional networks can connect, exchange knowledge and explore opportunities across both markets. Its work supports greater understanding of the commercial environments in Nepal and the UK while encouraging relationships that can lead to trade, investment and joint ventures.
Through business forums, seminars, workshops, trade-related engagement and networking initiatives, NBCCI works to bring together the people and organisations that can contribute to stronger bilateral economic relations.

Our Purpose
To promote business contact, cooperation and commercial relationships between Nepal and the United Kingdom, supporting opportunities for trade, investment, technology transfer and sustainable economic development.

Our Areas of Engagement
- Trade and market access: Encouraging businesses to understand market opportunities, requirements and commercial relationships in both countries.
- Investment and partnerships: Supporting dialogue around investment, joint ventures and private-sector collaboration.
- Business networking: Connecting entrepreneurs, established companies, investors and institutions.
- Knowledge exchange: Creating opportunities to share expertise, information and perspectives on business environments.
- Technology and innovation: Encouraging collaboration in emerging sectors and the transfer of relevant expertise.
- Institutional cooperation: Bringing business, education, government and development stakeholders into constructive dialogue.

Our Role in the UK–Nepal Business Relationship
NBCCI serves as a convening platform for organisations seeking to deepen their understanding of the two markets and establish productive business relationships. By bringing people together around shared priorities, the Chamber aims to help transform dialogue into opportunities for collaboration.

THE UK - NEPAL PARTNERSHIP

Building Stronger Economic Connections

The United Kingdom and Nepal share a longstanding relationship with opportunities to deepen commercial, educational, technological and institutional cooperation. As Nepal continues to develop its economy and businesses navigate an increasingly interconnected global market, stronger bilateral partnerships can create new pathways for investment, innovation and sustainable growth.

The UK - Nepal Business Forum 2026 provides a platform for business leaders, policymakers, investors and institutional representatives to explore shared priorities and identify practical opportunities for collaboration.

Strategic Priorities

1. Trade and Investment: *Strengthening commercial relationships, improving market understanding and encouraging investment and business partnerships between Nepal and the UK.*
2. Education and Future Skills: *Building connections between educational institutions, employers and professional networks to support skills development, research and knowledge exchange.*
3. Energy and Sustainable Infrastructure: *Exploring opportunities for technical cooperation, investment and innovation in energy, engineering and sustainable infrastructure.*
4. Digital Transformation and Innovation: *Encouraging collaboration in artificial intelligence, digital technologies and innovation to support business competitiveness and economic development.*

From Dialogue to Opportunity

The Forum aims to encourage meaningful engagement that extends beyond the event itself. By connecting organisations with complementary expertise and interests, it seeks to support stronger business and institutional relationships, greater awareness of bilateral trade and investment opportunities, knowledge exchange and the sharing of expertise, potential joint ventures, projects and collaborative initiatives and continued engagement between Nepalese and UK stakeholders.

Looking Ahead

The success of bilateral cooperation depends on turning shared interests into practical action. The Forum provides an opportunity to establish connections, exchange perspectives and identify the next steps towards stronger UK-Nepal economic relations. Building partnerships today for shared opportunities tomorrow.

MESSAGE FROM THE CHIEF GUEST

Advancing Industrial Growth, Trade and Investment for a Stronger Nepal

It is my pleasure to extend my best wishes to the organisers, delegates and participants of the UK–Nepal Business Forum 2026.
Nepal and the United Kingdom share longstanding relations founded on mutual respect, cooperation and friendship. This Forum provides an important platform to strengthen these ties by promoting meaningful dialogue, fostering business partnerships and exploring new opportunities for trade, investment and economic collaboration.

Hon. Er. Deepak Kumar Sah
Minister for Industry, Commerce and Supplies, Government of Nepal

Nepal offers significant potential in hydropower, tourism, agriculture, information technology, infrastructure and manufacturing. We welcome UK investment and collaboration to advance innovation, technology transfer and sustainable industrial development.

The Government of Nepal remains committed to facilitating investment, strengthening the business environment and fostering partnerships between Nepalese and British enterprises to support shared prosperity and long-term economic growth.

I am confident that this Forum will translate shared interests into meaningful partnerships and lasting opportunities. I wish the UK–Nepal Business Forum 2026 every success

OPENING SESSION

One Forum. Meaningful Connections. Shared Opportunities.

Dr Roshan Rathi
President, NBCCI
Welcome Remarks

HMA Rob Fenn
British Ambassador to Nepal
Opening Remarks

Education specialist with over 20 years of experience in higher education internationalisation, global partnerships and large-scale education programmes.

Mr Shiva Kumar Sapkota
Panellist | Joint Secretary, Ministry of Education & Sports, Nepal

Education policy specialist with experience in national education planning, sector reforms, education equity and international collaboration.

Mr Rustom Mody
Moderator | Country Director, British Council Nepal

International education leader with extensive experience in teacher development, English language education and strengthening UK–South Asia educational partnerships.

PANEL DISCUSSION III & IV

PANEL DISCUSSION III

Powering Nepal's Energy Future: Applying UK Science, AI and Innovation

Nepal's energy and infrastructure ambitions create opportunities for technical cooperation, investment and innovation. This session will examine how UK expertise, emerging technologies, and collaborative approaches can support sustainable energy systems, grid modernisation, and resilient infrastructure.

Key Focus Areas

- Hydropower and renewable energy development.
- Smart infrastructure and engineering innovation.
- Artificial intelligence and data-driven solutions.
- Technical cooperation, investment and sustainable development.

PANEL DISCUSSION IV

Accelerating Nepal's Digital Economy: AI, Digital Governance and Technology Partnerships with the UK

Digital technologies are reshaping businesses, public services and economic competitiveness. This session will explore how collaboration between the UK and Nepal can support responsible AI adoption, digital transformation, technology partnerships and the development of future-ready digital skills.

Key Focus Areas

- Artificial intelligence and business productivity.
- Digital governance and service innovation.
- Cybersecurity and digital trust.
- Technology partnerships, entrepreneurship and digital skills.

PANEL III

Powering Nepal's Energy Future: Applying UK Science, AI and Innovation

Mr Nav Raj Ojha
Panellist | Deputy Managing Director at Transmission Directorate, Nepal Electricity Authority

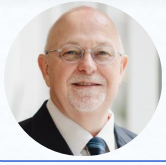
Power systems engineer with nearly 30 years of NEA experience, specialising in power generation, transmission infrastructure, distribution networks and electricity system management.

Mr Pratik Man Singh Pradhan
Panellist | Vice-President, Butwal Power Company

Hydropower specialist with over 34 years of experience in project design, construction, contracting and development.

Mr Kieron Hanson
Panellist | Director, Hydroplan Group UK

Hydropower specialist with over 30 years of experience in turbine design, project development and energy systems across the UK and Nepal.



Mr Peter Thompson
Panellist | Director and East Asia Energy Business Leader, Arup UK

Energy and infrastructure specialist with over 38 years of experience in renewable energy and sustainable development.

Ms Abhigya Malla
Panellist | Secretary, Independent Power Producers' Association, Nepal (IPPAN)

Hydropower and infrastructure leader with expertise in strategic finance, investment, corporate governance and sustainable energy development.

Mr Bipin Basnet
Moderator | Country Lead, Adam Smith International, Nepal

Leads development programmes across key sectors, with expertise in investment, infrastructure and public-private partnerships.

RESEARCH PARTNERS

Advancing Higher Education Through National and International Partnerships

As a Lifetime Member of the Nepal Britain Chamber of Commerce & Industry (NBCCI), the Asian Institute of Technology & Management (AITM) contributes to Nepal's higher education sector through academic excellence, national and international partnerships, and industry engagement.

AITM College

Established on 20 June 2012, AITM is a private academic institution in Lalitpur, Nepal. Its campus covers approximately 0.81 hectares, with around 145,000 sq. ft. of built-up space.

International Academic Partnership

AITM's academic partnership with the University of the Highlands and Islands (UHI), UK, provides students with access to UK higher education programmes and international academic pathways.

Academic Programmes

AITM's programme portfolio includes:

- BA (Hons) Hospitality Management — UHI, UK
- BA (Hons) Business and Management — UHI, UK
- BSc (Hons) Computing — UHI, UK
- Master of Business Administration (MBA) — Far Western University, Nepal
- Bachelor of Civil Engineering — Far Western University, Nepal
- Plus Two Science and Management — National Examination Board, Nepal

Preparing Graduates for a Global Future

Through its academic programmes, institutional partnerships and industry engagement, AITM aims to develop graduates with the knowledge and professional skills to contribute to Nepal's development and the wider global economy.

Website: www.aitm.edu.np

RESEARCH PARTNERS

Empowering Careers Through Education & Global Opportunities

As a Lifetime Member of the Nepal Britain Chamber of Commerce & Industry (NBCCI), LCCI Global Qualifications (LCCI GQ) advances skills development, educational progression and international opportunities through a diverse portfolio of qualifications and learning initiatives.

LCCI GLOBAL QUALIFICATIONS

LCCI GQ delivers programmes in soft skills, management, English language, hospitality, culinary arts, and computing and IT. Cambridge Assessment English, part of the University of Cambridge, has appointed LCCI GQ as an Authorised Exam Centre. Having trained and certified thousands of learners in Nepal and internationally, LCCI GQ develops industry-relevant qualifications benchmarked against international standards, with quality assurance from Qualifications Scotland.

Student Mobility Programme
In collaboration with UK education partners, LCCI GQ's Student Mobility Programme creates opportunities for international learning and cultural exchange. This programme enables students to experience diverse learning environments, broaden their global perspectives and strengthen their personal, academic and professional development.

Early Genius
Developed in collaboration with Oxford University Press, Early Genius is LCCI GQ's early-years education initiative. It provides curriculum, resources and learning support for children, teachers and parents, with an emphasis on foundational knowledge, age-appropriate learning and holistic child development.

Creating Opportunities Through Education
From international student mobility and early-years learning to vocational qualifications and educational publishing, LCCI GQ is committed to equipping learners with the knowledge and skills to progress in education, employment and business.
